Tractor Instrument Cluster

Inverom delivers breakthrough innovation in graphical user displays, right-hand armrest, instrumentation, telematics and other technologies to take the user experience to the next level.

For original equipment manufacturers (OEMs) in heavy construction and agriculture equipment, user experience is a key differentiator in a highly competitive marketplace. Inverom brings vertically integrated innovation to the world's leading OEMs, from concept to customer, in fully assembled advanced instrument clusters, right-hand armrest control systems, Flexible Reconfigurable Electronic Displays and more:

GLOBAL AGRICULTURE AND CONSTRUCTION EQUIPMENT OEM

Delivering right-hand armrest console with an integrated multifunction touchscreen panel, propulsion handle and electro-hydraulic control

GRAPHICAL USER DISPLAY Developed and delivered advanced Flexible Reconfigurable Electronic Display; color haptic touchscreen human-machine interface; integrated machine management and control for next-level performance

We create game-changing innovation. We *integrate* development, manufacturing and distribution. We *accelerate* time to market, cost reduction and competitive advantage.
